

De CKI Scriptieserie

Werkgroep CKI-B

20 mei 2010

- [A] Logica uit taalhoek
- [B] Logica uit informatica-hoek
- [C] Informatica: agents
- [D] Informatica: kennis
- [E] Informatica: adaptieve systemen
- [F] Psychonomie en ergonomie
- [G] Neuro/psych: experimenten
- [H] Literatuurstudie

1. Willemijn Vermaat, *Controlling Movement*. (04/99) [A]
2. Mark Zuidema, *The Culprit Might Have Done It*. (05/99) [A]
3. Rick Nouwen, *Action-Only Semantics*. (05/99) [A]
4. John Tukker, *Simulating Motion Detection: A Bilocal Model*. (11/01) [G]
5. Sander Bruggink, *Discourse Representation by Hypergraphs*. CKI Scriptieprijs 2002(1) (11/01) [A]
6. Derk Pietersen, *Dynamics and Negation: Investigations on Extending CML with a Negative Fragment*. (12/01) [A]
7. Wouter Huijnink, *Supervenience in Nonreductive Theories of Mind*. CKI Scriptieprijs 2002(2)(01/02) [H]
8. Ype Driessen, *Gedachte-experimenten*. (01/02) [H]
9. Martijn Warnier, *Specification and Verification of Sequential Java Programs*. (02/02) [B]
10. Carsten Riggelsen, *Induction of Bayesian Networks with a priori Domain Knowledge*. (06/02) [D]
11. Laura Korte, *Coinductive Proof Nets*. (06/02) [B]
12. Huib Aldewereld, *Rational Teams: Logical Aspects of Multi-Agent Systems*. (06/02) [C]
13. Emiel Ubink, *MachAIvelli, Impliciet en expliciet modelleren van opponenten in een role playing kaartspel*. (06/02) [C]
14. Dimitri Hendriks, *Clausification of First-Order Formulae, Representation & Correctness in Type Theory*. (08/98) [B]
15. Sieuwert van Otterloo, *Evolutionary Algorithms and Scheduling Problems*. (08/02) [E]
16. Eveliene de Vos, *Look at that Doggy in my Windows, on the effects of anthropomorphism in human-agent interaction*. (08/02) [F]

17. Jurriaan van Diggelen, *Using modal logic in mobile robots*. (10/02) [C]
18. Auke Pols, *Insight in problem solving*. (10/02) [H]
19. Leendert van Maanen, *Memory Maintenance during Sleep: a Neural Network Model*. (10/02) [G]
20. Mirte van Galen, *De invloed van kennis over de wereld op de N400-component*. (04/03) [G]
21. Stefan van der Stigchel, *Open the Gate: a Connectionist Investigation of the Neurological Basis of Cognitive Control in Task Switching*. (06/03) [F]
22. Jiska van Duijnhoven, *Knowledge Assessment using Bayesian Networks*. (06/03) [D]
23. Bart Karstens, *Formal Verification of the Redesign of a Distributed Lift System using UPPAAL*. (06/03) [B]
24. Eva van den Broek, *'Piep Piep Piep - Ich Hab' Dich Lieb': Rhythm as Indicator of Mate Quality*. CKI Scriptieprijs 2003 (06/03) [G]
25. Robbert Brak, *Logics for Quantum Circuits*. CKI Scriptieprijs 2004 (07/03) [B]
26. Michiel Hildebrand, *Communicative Virtual Agent: Learning by Interaction*. (08/03) [C]
27. Thomas Dohmen, *Kuhn's Incommensurability Thesis*. (08/03) [H]
28. Saskia van de Ven, *Over Tijd: representatie van temporele aspecten van wetgeving*. (08/03) [D]
29. Henk Mannen, *Learning to play chess using reinforcement learning with database games*. (08/03) [E]
30. Gerbrand ten Napel, *Modelling Evolution using Asynchronous Stochastic Cellular Automata*. (08/03) [E]
31. Jorn Bakker, *Online Adaptive Learning in a Role Playing Game*. (01/04) [E]
32. Noël Verdurmen, *A Model for Credit Scoring: Combining Bayesian Networks with Survival Analysis Techniques*. (11/03) [D]
33. Allard Kamphuisen, *A Computational Model of Cortical Functioning at Cellular Level*. (06/04) [G]
34. Tinka Rombouts, *Solutions of argumentation in cooperative game theory*. (08/04) [A]
35. Annerieke Heuvelink, *Monkey see, monkey do... Modeling the formation of social consensus*. (09/04) [F]
36. Michal Sindlar, *A Modular Machine Learning Approach to the Recognition of Facial Expressions of Emotion*. (05/05) [E]
37. Alex Bongers, *Onderzoek naar toepassing van Agent Technologie binnen Reaal Verzekeringen*. (10/04) [C]
38. Willem van Doesburg, *Human behaviour representation for training; Cognitive model supported training simulations for naval tactical command*. (01/05) [F]
39. Hans van Kuilenburg, *Expressions Exposed; Model based methods for automatic analysis of face images*. CKI Scriptieprijs 2005 (01/05) [E]
40. Rianne Stotteler, *Conscious and Unconscious Processes in Spatial Memory and the Relation to Eye Movements*. (08/05) [F]

41. Carola Houtekamer, *What about it? An Essay on Intentionality, Perception and Nonconceptual Content*. (09/05) [H]
42. Lianne Bodenstaff, *Formalisation of argumentation protocols in Event Calculus*. (10/05) [B]
43. Floris Bex, *Explaining Anchors; Laying foundations for an evidential sense-making system*. (10/04) [A]
44. Jacqueliijn Ringersma, *Prosodic Boundaries in the Dutch language*. (11/05) [A]
45. Hado van Hasselt, *Reinforcement Learning using Continuous Actions*. CKI Scriptieprijs 2006 (01/06) [E]
46. Leo Pape, *Neural Machines for Music Recognition*. (03/06) [E]
47. Willem Huijbers, *What you get is what you see; The role of the Frontal Eye Fields during the planning of saccadic eye movements*. (05/06) [G]
48. George van der Beek, *Representationalism versus Anti-representationalism: constraining the notion of representation*. (11/06) [H]
49. Nico Munting, *On visual backward masking*. (08/06) [F]
50. Joost Wegman, *The brain's natural input*. (09/06) [G]
51. Jannis Vlachos, *The influence of emotional arousal on memory consolidation - A connectionist approach*. (06/07) [G]
52. Bas de Haas, *The Role of Tempo in Groove and Swing Timing*. (06/07) [E]
53. Joachim de Greeff, *Evolving Communication in Evolutionary Robotics*. (07/07) [C]
54. Sjoerd Tieleman, *Formalisation of version control with an emphasis on tree-structured data*. (08/06) [B]
55. Folkert de Boer, *The role of Speciation in Spatial Coevolutionary Function Approximation*. (07/07) [E]
56. Willem Heijltjes, *Graph Rewriting for Natural Deduction and the Proper Treatment of Variables*. CKI Scriptieprijs 2007 (08/07) [B]
57. Aris van Dijk, *Connecting conceptual agents in Semantic Web*, (10/08) [C]
58. Freek van Polen, *Towards a Sentient Environment Using a Neural Sensor Network*. (11/08) [E]
59. Marijn Zwitserlood, *De lokale adbm-calculus*. (08/07) [B]
60. Reinier Lamers, *Automated Natural Language Processing Using Functional Discourse Grammar*. (05/09) [A]
61. Matthijs Melissen, *Lambek-Grishin Calculus Extended to Connectives of Arbitrary Arity*. (04/09) [A]
62. Arlette van Wissen, *Automated Coalition Formation between Self-Interested Heterogeneous Actors*. (08/09) [G]
63. Thomas Markus, *A hybrid approach to symbol grounding*. (04/09) [E]
64. Matthijs Hovelynck, *Multi-model Classification in a One-class Setting*. (10/09) [E]
65. Yvonne Blokland, *Imagined Music as a paradigm for Brain-Computer Interfaces*. (09/09) [G]
66. Marieke Peters, *Confluence Constructor*. (12/09) [B]
